# CHEMISTRY LAB DESIGN

## Important Features of Laboratory: →

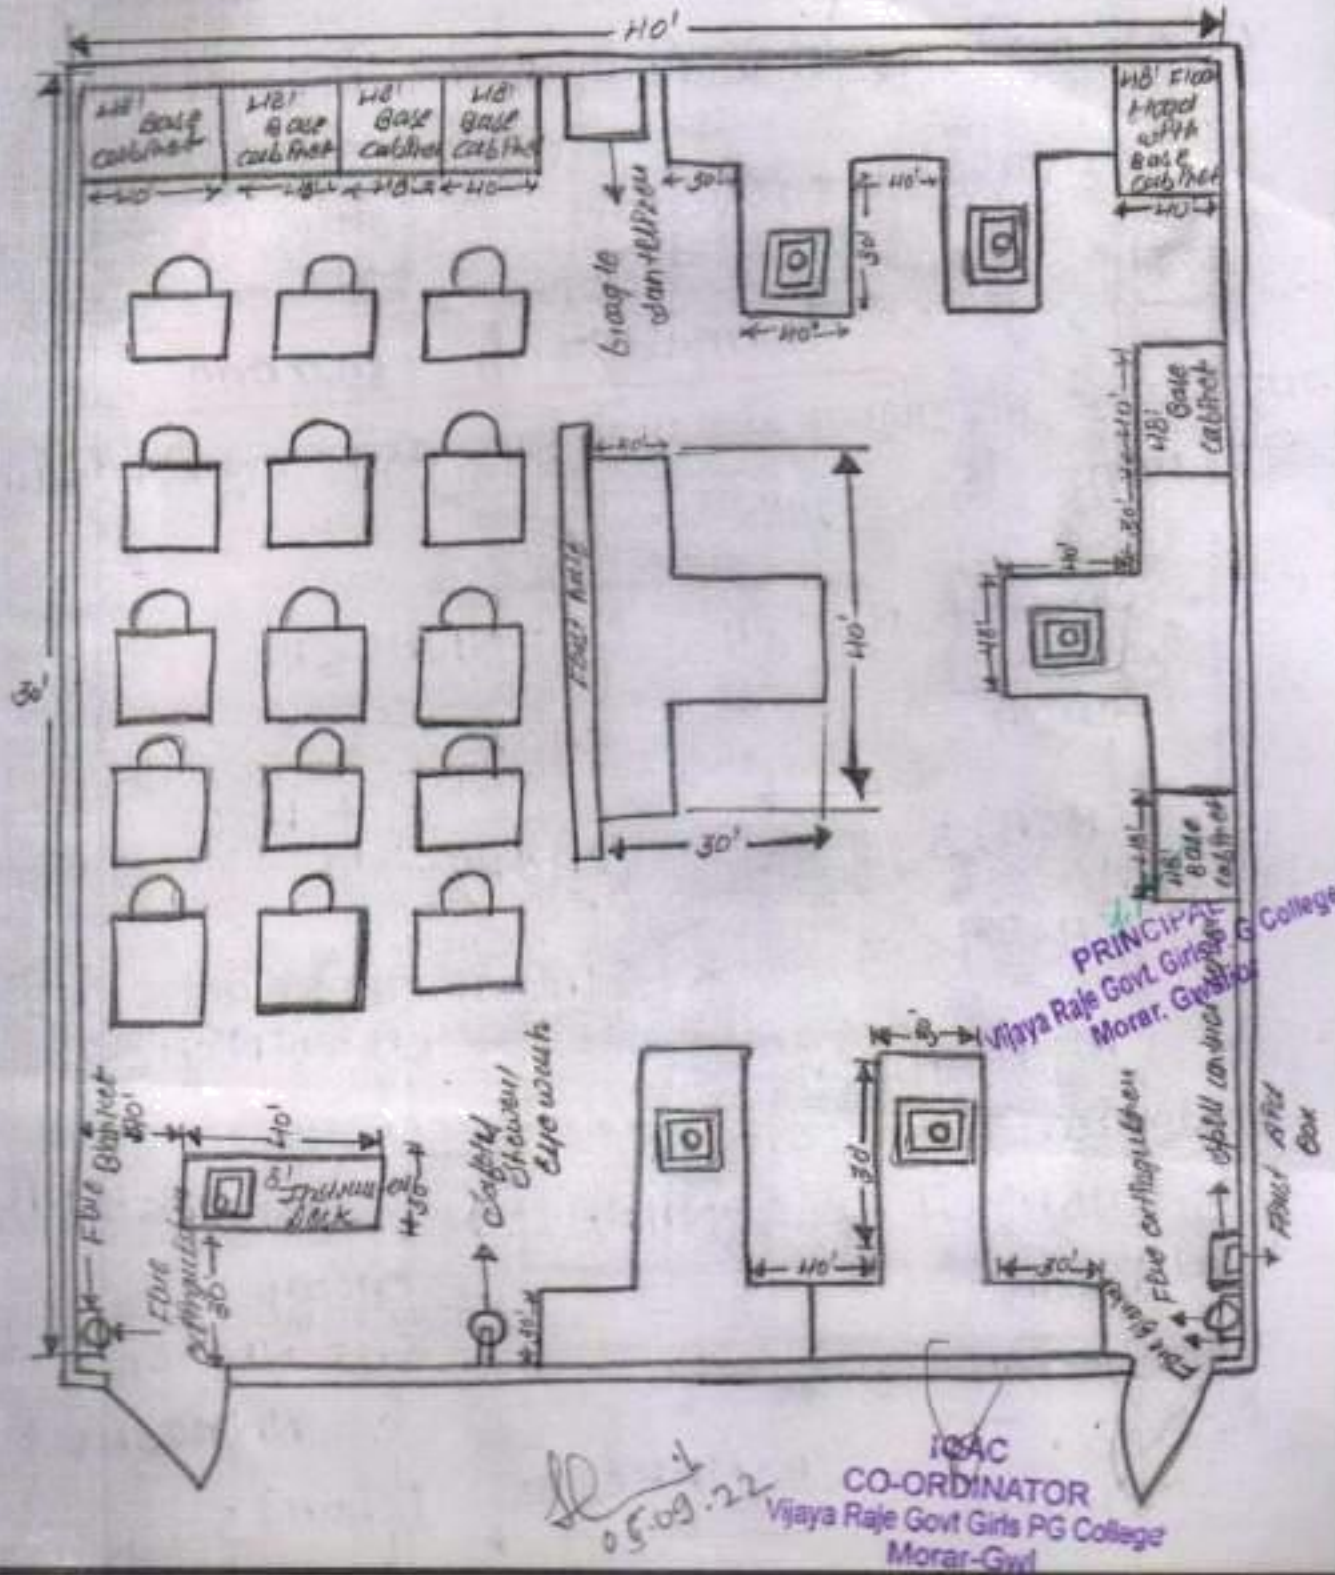

1. Minimum size of 1400 sq. feet for the chemistry lab area with the maximum of 30 students is required.
2. Lab Ventilation - Lab must have 5 to 6 large windows for air flow directly into the laboratory area and out to the exterior of building, away from ventilation intake ports. The minimum of 8 ventilation fans (exhaust fan) must be there to remove at least 3200 cubic feet of air per minute. These fans should be vented directly to the out of doors and should not be interconnected between rooms.
3. Lab experimental table must have arranged so a maximum of working students can be observed directly. *Four students*

# CHEMISTRY LAB DESIGN

## Important Features of Laboratory: →

1. Minimum size of 1400 sq. feet for the chemistry lab area with the maximum of 30 students is required.
2. Lab ventilation — Lab must have 5 to 6 large windows for air flow directly into the laboratory area and out to the exterior of building, away from ventilation intake ports. The minimum of 8 ventilation fans (exhaust fan) must be there to remove at least 3200 cubic feet of air per minute. These fans should be vented directly to the out of doors and should not be interconnected between rooms.
3. Lab experimental table must have arranged so a maximum of working students can be observed directly. ~~Four students~~
