Research Policy

In accordance with the letter from the Department of Higher Education, M.P. Govt., numbered 2254/वि.वै.परि/2021 and dated 25/08/2022, the Research committee of the college has formulated the following research policies:

1. Research Journal Publication: The college will establish and publish a research journal that will serve as a platform for showcasing the research work conducted within the institution.
2. Mandatory Research Paper Publication: It is mandatory for the college teachers to publish at least one research paper each year in a journal that is recognized by the University Grants Commission (UGC).
3. Expansion of Research Centers: Currently, the college has 7 research centers specializing in Economics, Hindi, Sociology, Political Science, Home Science, Commerce, and Geography. The aim is to expand the number of research centers to 9 by including English and Psychology.
4. Membership in Academic Associations: The college encourages its teachers to obtain membership in regional, national, and international academic associations relevant to their respective subjects. Additionally, their active participation in seminars and conferences organized by these associations is strongly encouraged.
5. Seminars and Conferences: The departments within the college that have research centers are responsible for organizing seminars, conferences, and workshops to promote research activities and academic collaboration.
6. Collaboration with Institutions/Universities: The college will actively pursue the establishment of Memoranda of Understanding (MOUs) with institutions or universities that publish research journals, aligning with the guidelines set forth by the UGC.

These policies have been devised with the intention of cultivating a research-oriented environment within the college, fostering academic growth, and promoting active engagement within the research community.
